01 PROFILE

Multidisciplinary designer across **art direction, product design and 2D game production**. I've shipped real-money and casual titles in two markets — building the visual pipeline from scratch at Gameskraft (India) and now designing **the visuals of the Betano platform** at Kaizen Gaming Brazil, one of Brazil's largest betting and casino products. I pair illustration and brand craft with UX thinking and AI-accelerated workflows to ship immersive, user-first products fast.

02 EXPERIENCE

Kaizen Gaming — Betano

2025 — PRESENT

Senior Visual Designer · São Paulo, Brazil

- Design **visuals for the Betano platform** — the hero pieces in the top section of the website, promotional banners and stories — the first thing players see, across both sports and casino verticals.
- Own the **CRM visual output** end to end, shipping campaign, sports-event and casino assets against a continuous release calendar without losing brand consistency.
- Bring **innovative motion solutions** into the pipeline, including AI-generated animations produced with **Higgsfield**, turning static placements into moving, higher-impact assets.
- **Coordinate a team of designers from a partner agency** — briefing, reviewing and approving deliveries, and holding quality across every piece that ships.
- Partner with CRM, product and marketing in Agile rituals, running multiple high-priority projects in parallel against overlapping deadlines.

Gameskraft

2024 — 2025

Senior Graphic Designer / 2D Production Lead · Remote from Brazil

- Directed the visual and production workflow for **Truco Patrão**, a real-money card game built for Brazilian players, from concept to live launch — **10,000+ active cash players in the first year**.
- Designed and shipped a standalone Truco scoring app in under a month, fully aligned with the game's identity.
- Led user-testing workshops for Truco Patrão and Ludo Campeões, and worked with product and UX to adapt Ludo Campeões for South American audiences.
- Coordinated a cross-discipline team of designers, copywriters and animators, keeping pipelines smooth and assets on time.

02

EXPERIENCE CONT.

Grou

2022 — 2024

Art Director · Porto Alegre, Brazil

- Drove visual strategy across branding, social media, UI and motion, overseeing production for performance-driven digital campaigns.
- Lead art director for **Rocking Talent Magazine** — guiding visual identity, layout and illustration across multiple issues.
- Shaped brand development with strategists and copywriters, crafting cohesive narratives and style guides for clients.

Elofy

2021

Art Director · Porto Alegre, Brazil

- Led a small team developing cohesive advertising visuals, animation and product UI for the platform.
- Built campaign and brand assets end to end, from concept through final delivery.

Conjunto Comunicação · DesignLAB, UniRitter

2020 — 2021

Art Direction & Design Internships · Porto Alegre, Brazil

- Supported branding and campaign execution — visual layout, video editing and content production — alongside academic and institutional design projects.
